Residential Key Boxes – Single Residence Only (not multifamily)

Miami Township Fire & EMS, Clermont County, offers Residential Key Boxes that residents may purchase. The installation of a secure lock box allows the Fire Department quick access in an emergency without breaking doors. Residential Key Boxes are only used when there is a call for an emergency at a location.

This may be used (but is not limited) to the following situations:

- Fire Alarm / Smoke detector sounding
- Lift Assist
- Fall or Injury
- Child home alone and calls 911
- Medical Alarm Activation
- Property Damage with no one home

Products are ordered by the resident directly from one of two companies, options are listed below. Once received the Fire Department can assist with installation, and we will need to place the keys in the box. Only the fire department has the keys to lock the box.

It is important to order these based on the fire department that covers your home. Mailing Address and Fire Department do not correspond. This is for Miami Township, Clermont County, outside of the Cities of Loveland and Milford.

See page 2 for ordering instructions. - Shipping is included in the estimated cost listings.
